JUDGE MC CUNN TO THE RESCUE

Gen Phil Sheridan's report is published in the Times, and makes some interesting disclosures in regard to the concluding campaign against Lee It appears that Sheridan possessed the entire confidence of Grant, and many of the most important movements originated with the former and were crowned with brilliant success

NEW YORK, June 14

Increased activity in gold continues The recent rise has produced speculations for an advance and the price shows a corresponding firmness, the premium during the morning has ranged at 42 1 4@42 1 2

NEW YORK, June 14

The steamer Newcastle brings Havana dates to the 10th The evacuation of San Domingo by the Spanish was ready to take place on the reception of general orders

Numbers of persons loyal to Spain were were leaving San Domingo as refugees for St Jago some were also reported at Havana The Flamingo Wren and other blockade runners were to leave Havana for England to be sold Weather in Havana cool and healthy The rebel Gen Slaughter arrived at Havana from Matamoras on the 10th

NEW YORK June 14

The ship D S Kendall from Hamburg arrived to day with six hundred and twenty passengers Thirty children died on the passage The ship Deutchland also arrived from Hamburg, with nearly 500 passengers There were twenty two deaths on the passage

BOSTON June 14

A portion of Clark's wharf in east Boston tumbled overboard last night, the underpinning being rotten Some forty thousand bushels of salt stored in small wooden tenements were lost Total damage estimated at $75 000

NEW YORK June 14

L N Mitchell Editor of the Daily News and lately editor of the Richmond Examiner, was arrested this afternoon and taken to Fort Lafayette

BOSTON, June 14

Fifty one sworen rebel prisoners were released from Fort Warren yesterday, in taking the oath of allegiance The Boston Traveler says some of them were shown some attention by a number of citizens who seemed to spare no pains to make them enjoy themselves during their brief stay in Boston These rebels formerly acknowledged that though they have taken the oath of allegiance their love for the old Union is not very enthusiastic

New York, June 14

Private advices from a prominent member of the Atlantic Telegraph Co announces the completion of the cable and confident in having England and America in telegraphic communication next month

BRANFORD, C W, June 14

A very destructive fire occurred here at one o clock this morning, raging until five o clock About half of the principal business block in town was destroyed The fire was no doubt the work of incendiary Thirty buildings were destroyed Loss from $100,000 to $125,000 Insurance $50,000

MONTREAL, C W, June 14

Last evening as a party consisting of Mr. E. Coleman, Miss Carrie Colman, Miss Kate Gage Miss Craighton and Geo Craighton, were rowing in the Des Jardins canal, the steamer Argyle passed them, capsizing their boat Efforts were made to save them, but unfortunately all except Geo. Craighton were drowned.

DETROIT, June 14th,

Large saw mills of Wright & Co Saginaw city, with a million feet of Lumber, was destroyed by fire Loss a hundred thousand dollars. By some misapprehension a recent visit of certain boards of trade to Boston, has been regarded to some extent as a caucus preliminary to assembling of the international convention The visit referred to was purely a social character, having no connection with the coming convention

NEW YORK, June 14.

The Collector of Internal Revenue, of Albany has seized in this city a large quantity of whisky and beer, said to have been made in that city without paying tax

The Evening Post says of Mitchell's arrest "We learn that the arrest was made by detectives Kelsey and Elder, under direction of Gen Dix, the latter having received orders from Washington to arrest Mitchell on the charge of treason Soon after the arrest of Mitchell, Judge McCunn visited Gen Dix's headquarters, but could learn nothing of the prisoner's movements. The Judge said that the Government could not try the prisoner as a traitor, for he was an alien, and none but citizens could be tried as traitors. The Judge declared that the Government could only hold Mitchell as an alien enemy, but now it is supposed to have no meaning During the evening Judge McCunn visited Gen Dix at his residence but probably before that time Mitchell was at sea

WASHINGTON June 14

All the honorably discharged soldiers have been granted the privilege of retaining their arms at the following rates Muskets of all kinds, with or without accoutrements, ten dollars, all other carbines and revolvers, eight dollars, sabres and swords, with or without belts, three dollars

Another Oil Strike on Benschoff Run

150 Barrel Flowing Well.

(SPECIAL TO THE MORNING HERALD)

PETROLEUM CENTER June 14

MESSRS W W & H C BLOSS—The Benschoff Run Petroleum Company of N Y struck a one hundred Barrel Flowing Well on Benschoff run this morning.

This is the third flowing well on the same run all belonging to the same company

MISCELLANEOUS—Oil operations are improving at Tionesta, a reliable correspondent state that gas and oil has been found at 188 feet and the indications are so favorable for a big strike that several more wells are to be put down immediately

A well was struck in Caldwell creek about seven miles above Enterprise, with in the last week It flowed about 50 barrels as we are informed, and then suddenly stopped, owing to imperfect tubing It is to be cased again immediately

The Getty well on Benschoff Run has increased to 300 barrels per day, and has not stopped as reported

The U S well, on Pithole, is steadily increasing At last accounts it was yielding 1200 barrels daily

THE PETROLEUM DISTRICT OF CANADA WEST.

REPRINT of the correspondence of the TORONTO GLOBE in the Petroleum District of Canada West

These letters contain the only complete description of the Region yet issued from the press—They have been especially written with the view of affording practical and reliable information for the use of those who have already invested, or who may contemplate investing in oil lands or stocks Coming from an entirely independent and impartial source they are in this connection invaluable Price, 50 cents per copy postage paid Address ROLLO & ADAM Booksellers and publishers, Toronto, C W my2 1w

Efficiency of Air Pumps o Blowers.

MUCH controversy having appeared in the public prints in relation to the comparative efficiency of the different Air Pumps or blowers introduced upon Oil Creek we beg leave to append the following facts

There are 40 of the Crocker Air Pumps manufactured by the Washington Iron Works, in operation on Oil Creek and other places One at Petroleum Center belonging to Fowler & Custar, producing from 60 to 80 barrels per day one at Corn Planter farm belonging to New Jersey Petroleum Co 15 barrels and on the increase On the Funk farm there are 12, all doing good work One at the Lincoln Well owned by the Oceanic Oil Co producing from 75 to 85, one on the McElhany farm, from 20 to 40 bbls, one at the Pennebacker well, from 35 to 60 bbls, one on the Parker Flats at Titusville, owned by the Oceanic Oil Co., placed 900 feet from the well blowing through a two inch pipe, producing from 30 to 50 bbls one at the Noble Well on McElhany farm, from 50 to 75 bbls also one on the same farm at the Caldwell well, from 50 to 75 bbls per days and we could name many more The pump running at the Drake well was manufactured by the Washington Iron Works, is still in operation doing good work, and was never changed for the Monkey or any other pump Any other information can be obtained of the subscriber at his office in Titusville

NEW YORK STATE

BARREL COATING CO.

THIS COMPANY HAVING PURCHASED the right for the State of New York to manufacture (under the "Letters Patent") of the THE U S. Barrel Coating Company are now prepared to supply their elasting

COATING FOR BARRELS

and other packages intended to contain Crude and Refined Petroleum, Butter, Lard and Lard Oil, Linseed and Whale Oils, Spirits of Turpentine, Alcohol, Paints, Molasses, Sugars, Corn Meal, &c

The considerations which commend this Coating to your favorable notice and adoption are—

1st PERFECT SECURITY FROM LEAKAGE OR EVAPORATION, the Coating remaining perfectly elastic cannot crack or break off and Barrels and other packages prepared with this Coating are

Rendered Air Tight,

and perfectly impermeable to any of the above mentioned articles for any length of time

2d It is insoluble in all oleaginous matter And may volatile fluids, so odorous and extremely adherent, and therefore cannot color or otherwise injure any of these articles

4th PETROLEUM, Whale and Linseed Oils, also Butter Lard and Lard Oil, Paints &c may be shipped in ordinary Boxes prepared with this material, as the packages will not be injured by Tropical Heat and can be furnished at much less expense than the present mode of shipment in tin cans and casks

5th Barrels may be filled within twenty four hours after being coated, and it can be applied to Old and New Barrels in precisely the same manner as glue

6th The Coating being elastic yields to the shrinkage of the stave leaving no crevices which the same and crevices which not the case with any other coating

7th Present cost about 25 cents per Barrel Further information and the Coating can be obtained by applying to

THOS. S. DAKIN, President, 128 Maiden Lane, N. Y.

N B—The Coating is secured by Letters Patent and parties infringing will be rigidly prosecuted Feb 1st, 65 1y

PINEAPPLE CIDER,

DR. TALBOT'S CONCENTRATED

MEDICAL PINEAPPLE CIDER

IS A PREVENTIVE OF SICKNESS

The experience that Doctor Talbot has had for the past twenty five years convinces him that it is time the public had an article offered that will prevent sickness The article offered is Dr Talbots Medicated Pineapple Cider, designed for all classes

Old and Young.

It is not new to the Doctor but is entirely new to the public One quart bottle will last a well person a year This is rather a new mode of Doctoring, nevertheless it will

Save Millions

from being sick Is it not better to pay three dollars a year to keep from being sick than to pay ten or twenty dollars in doctor bills as has much more for the loss of time and inconvenience of being sick?

To prevent sickness use as follows

Add one spoonful of Medicated Pineapple Cider to a tumbler of cold water and drink the first thing after you rise in the morning and the same before you retire at night.

It will increase the strength and give

Vigor and Action.

A celebrated New York Merchant who has made a thorough trial of the Pineapple Cider assures Dr Talbot that he has gained ten pounds of flesh in one month at the first trial He continues its use as above directed and finds it very beneficial, says it has proved an entire

Preventive to Sickness

In his case Also another well known gentleman in New York has used the Medicated Cider constantly for ten years and has not been sick one day during that time

THIS WONDERFUL PREPARATION

Will increase the strength give vigor and action to the system and regulate the digestion When taken internally, for pains of all kinds—Bilious Colic Diarrhea Disease of the throat Pains in the Chest Hoarseness, Coughs, Neuralgia Rheumatic Pains Dyspepsia Acidity of the Stomach etc its soothing and quieting effect on the system is most astonishing

Dr Wilcox an eminent physician employed it with great success in treating Fevers Dyspepsia Nervous Affections, Loss of Appetite, Weakness Palpitation of the Heart Chronic Diarrhea Colic Dysentery and Diseases of the Stomach and Bowels It is also particularly recommended by physicians to delicate females and as an excellent remedy for Enfeebled Digestion, Want of Appetite Scrofula, Nephritic Affections Rheumatism etc It never fails to relieve Nervous Tremor Wakefulness Disturbed Sleep, etc AMERICAN LADIES have used this article with great success to heighten their color and beauty

Its immediate cheerfulness to the disposition, and brilliancy to the complexion.

To travelers especially it is of inestimable value, and should be provided as a medicine for every journey in which the water is likely to vary in quality and tendency

Persons residing in any part of the country may adopt it with the utmost confidence as a timely efficious restorative.

Fayetteville, Onondaga Co, N. Y., May 16th, 1865 my15m6t

ATWOOD'S

PATENT DRILLING MACHINE,

PILE DRIVER

AND

HYDRAULIC SAND PUMP

PRACTICAL TESTS having fully demonstrated the superiority of this machine over all others for the purpose of sinking oil wells, the undersigned is now prepared to receive orders for the same.

This machinery comprises everything requisite for the boring of oil wells, excepting the steam engine and cast iron driving pipe, (but will be furnished if desired at a reasonable price,) and dispenses with the use of the Derrick Rope, Bull wheel and other cumbrous and expensive fixtures now in use, and is so arranged, being constructed on wheels and portable, that it can be easily removed for the purpose of sinking wells in different localities

The detritus is removed from the well by our Patent Hydraulic process, and does not require the removal of the drill from the boring. This process not only removes all the detritus in from 5 to 10 minutes, but likewise effectually clears out and opens all the small oil veins that are so often entirely closed up by the old process of sand pumping.

With this machine and a practical engineer, a well can be sunk from 400 to 600 feet within a period of from 15 to 30 days after the drill pipe has been driven

Arrangements are being made for the construction and delivery of these machines in New York, Norwich Newburg, N Y, and Pittsburg, Pa.

For further information, price, terms, &c, address SIMEON LELAND Metropolitan Hotel, N Y ap13 3m

Treasury Department.

OFFICE OF COMPTROLLER OF CURRENCY.

Washington, March 11, 1865.

WHEREAS, by satisfactory evidence presented to the undersigned it has been made to appear that the SECOND NATIONAL BANK of Titusville, in the borough of Titusville, in the County of Crawford, and State of Pennsylvania, has complied with all the provisions of the Act of Congress entitled "An Act to provide a National Currency, secured by a pledge of United States Bonds and to provide for the circulation and redemption thereof," approved June 3, 1864, and has complied with all the provisions of said Act required to be complied with before commencing the business of Banking under said Act The office of Comptroller of the Currency being vacant.

NOW, THEREFORE, I, Samuel E. Howard, Deputy Comptroller of the Currency, do hereby certify that "THE SECOND NATIONAL BANK" of Titusville, in the borough of Titusville, in the county of Crawford and State of Pennsylvania is authorized to commence the business of banking under the Act aforesaid.

IN TESTIMONY WHEREOF, witness my hand and seal this 11th day of March, 1865.

SAMUEL T HOWARD,

(L. S.) Deputy Comptroller of the Currency. m13-3w

DYSPEPSIA—What everybody says must be true We have heard Dr Strickland's Tonic spoken of so frequently by those who have been benefited by it, that at last we are compelled to make it known to the public that we really believe it effects a cure in every case, therefore we say to those who are suffering with Dyspepsia or Nervous Debility, to go to their druggist and get a bottle of Dr Strickland's Tonic. For sale by Fleming's & Co, E. B. Chase & Co, Gaylord & Abbott & Allen

A SUPERIOR REMEDY.—We can conscientiously recommend to those suffering from distressing cough, Dr Strickland's Wild Cherry Cough Balsam It gives relief in the most distressing one, and is without the disagreeable taste of most Balsams There is no doubt but that the Wild Cherry Balsam is one of the best preparations for the purpose it is all that the proprietor claims for it We have tried it during the past week, and found it to be a most decided cough Balsam It is prepared by Dr Strickland, No 8 Wall Street, New York, and for sale by Fleming & Co, Gaylord & Abbott & Allen

J. W. [illegible]

Titusville Morning Herald.

WEDNESDAY, JUNE 15, 1865.

HOOKER.

He survives the tests applied to the character of this great soldier, the more he gains upon the public estimation. His victorious career, two summers since, in the Western Department caused him to be transferred to the Army of the Potomac. The history of that army had been most sad—unfortunate, if not humiliating. It had been defeated—had retreated; its enemy seemed more than its equal in valor and in endurance. Grant did not hastily or boastfully and loudly proclaim to all the world what he was about to do, and tickle the popular ear with deceitful hopes. He contrived his plans in secret, and he proceeded to carry them out with nervous vigor. Nor did the first reverse dampen his ardor, nor delay make him impatient. He held on with unrelaxing tenacity to his one purpose. And though the fickle people began to waver in their confidence in him, he never lost his own self-reliance, and when they complained, he never retaliated. He bided his time.

Politicians sought to inveigle him in their machinations, but they found him too noble for intrigue, and too intent with hand and heart, upon crushing the rebellion, to prostitute his position to making party-capital for his own aggrandizement. And now that all his campaigns and sieges and battles have resulted a triumphant issue, he seems grandly content with the consciousness of duty done, and to shrink from the burning gaze and thunders of popular applause. Recently he consented to visit Chicago in aid of the great Sanitary Fair now in progress. To avoid recognition, delegations, ovations, banquets, serenades, orations and every form and kind of demonstration in which the enthusiastic regard of his fellow countrymen could express itself, was of course impossible. And yet he passes through this ordeal with the same rare humility, the same invincible modesty, the same simplicity, unspoiled by the incense of fame and the homage of the world—which hitherto distinguished him in his immortal campaigns.

Without vanity, he makes no boast, or even mention of achievements which will be a theme of praise and wonder in future ages. Without ambition, he indulges in no demagogue arts, none of the tricks of the political aspirant.

Of consummate discretion, he commits himself to no hasty theory of reconstruction, and is reticent as to the policy our Government should adopt towards vanquished traitors or towards foreign Governments, who owe us apology and restitution. We believe that our military successes and our re-union are owing to these moral traits of Gen. Grant, as well as to his tenacity of purpose and his genius in the art of war.

He has maintained such a good understanding with the President and Cabinet and Congress; he has been so jealous of the rights and honor, and so forbearing to the errors of his brother officers, he has held himself so aloof from faction, that he has won the confidence of the whole country, so that his name alone has been a tower of strength to the Union cause.

Such a man is worthy of honor, we honor ourselves when we honor him. The most admired of the great Captains in history have made themselves hated for the despotisms they have erected. Grant will be beloved as the preserver of the liberties of the Western world, as the Soldier of Democracy.

THE STATUS OF THE NEGRO IN TENNESSEE.—A bill fixing the legal status of the colored people of Tennessee has passed the lower branch of the Legislature of that State. It guarantees the sanctity of the matrimonial relation among them, but forbids their intermarriage with whites. All laws in force for the benefit of married women and children are to apply to people of color, provided that colored children shall not be admitted to the schools with the whites. Colored persons may be witnesses in all States cases in court against each other, but not against white persons, and no contract between a white and colored person shall be binding unless made in writing and attested by a white person. Colored persons are subject to the same penalties as whites, with the addition that rape by a colored man on a white woman shall be punished with death. There are various other provisions in the bill, but these are the prominent features.

[illegible] it is said to have met with a [illegible] at New Orleans from the [illegible] and professional circles, [illegible] as from the citizens generally.

[illegible] gave a brilliant [illegible] "Monday [illegible] of time [illegible] of her husband.

MORALITY.—Most men are not so utterly dead to moral principles but what they feel a spontaneous glow of admiration for the man who does right because it is right, no matter if he does make less money by it. Some few men say he was a fool or a lunatic not to make the most of his advantage, right or wrong, if—but the heart of many is loyal to rectitude. We look and admire and praise. We cannot help it. He who in a selfish, calculating age, when all men are fighting and scrambling for money, stands up strong in his integrity, and modestly does the thing—not that is legal, not that is expected, not that is customary, not that is as others do, or as many preach, but does the thing which is right—such a man is worthy of all imitation. It is the heavenly minded few in the world, are not the righteous few likewise? A moral character that is genuine is seen as rarely as Diogenes' man, hunted for with a lantern at noonday.

THE ALPS.—At first sight the Alps disappoint travelers. They expect something up in the skies, and are surprised to find that they can look at the highest summits without sticking their chinas up into the air. But they approach, and the great features grow, they loose sight of the summits; they mount; at last they begin to descend, but still the hills shut them in, and at last, when they issue on the plains of Italy, and look back at the jagged ridge, which shows itself against the sky, and remember the hours of wind and snow they spent in passing them, though by the simplest, easiest road, they pay a last tribute of complimentary retrospect to the loftiest mountain range in Europe.

DIET OF THE FRENCH WORKMAN.—He is up at dawn. In fact, everybody rises early in France. There is more business done before ten o'clock in Paris than there is in London before eleven. There are two places where breakfast may be had—the *cremerie* and the soup shop. Some excellent coffee, with milk, costs less than one and a quarter pence, and the bread with butter, one penny. For dinner the soup will cost one and a half pence; the plate of meat two pence, half a bottle of wholesome wine four pence, or a quarter of a bottle two pence, or a pint of beer or milk two pence, and all of really good quality. In many places they give soup, a piece of mutton, beef à la mode, bread, and half a bottle of wine, for sixty centimes, or about eleven cents of our money.

The Government is now said to be feeding 200,000 of the inhabitants of Virginia of all classes, white and black. 11,000 rations are daily issued to citizens in Richmond alone.

The President refuses to consider applications for the release of the prisoners of war above the rank of Major.

Secretary Seward walked to the State Department, on Friday, from his residence, for the first time since he received his injuries. His wife, who has been confined to her bed for a week past is seriously ill.

LOCAL MATTERS.

List of Letters

REMAINING UNCLAIMED in the Post Office at Titusville, State of Pa., on the 13th of June 1865.

To obtain any of these letters, the applicant must call for "advertised letters," give the date of this list and pay one cent for advertising.

If not called for within *one month*, they will be sent to the dead letter office.

Free Delivery of letters by carriers, at the residences of persons, in cities and large towns, may be secured by observing the following rules:

1. Direct letters plainly to the street and number, as well as the post office and State.

2. Write letters with the writer's post-office and State, street and number, sign them plainly with full name, and request that answers be directed accordingly.

3. Letters to strangers or transient visitors in a town or city should be specially addressed, may be marked, "Care of" a person or place, "To the office," "Hold" or "Transient."

4. Place the postage stamp upon the upper right hand corner, leaving space between it and the address for postmarks. Letters so prepared will be delivered to the writer.—Sec. 13 Law of 1863.

Mowbray's Patent HYDROSTATIC AIR PUMP

For Elevating Oil, Water &c.

FROM DEEP WELLS.

After fifteen months experiments in order to ascertain the best mode of pumping oil wells the inventor has been completely successful, and now offers his improvements to oil operators.

Patent No. 43,168, Issued Nov. 22, 1865 for Air Pumps,

possesses the following advantages (slow motion and consequently durability, from eighteen to twenty strokes per minute will deliver a full stream from two inch tubing, maintaining a higher pressure than other pumps running at 80 strokes a minute.

Patent No. 45,849, Issued January 10, 1865, for Temple Adjustment,

enables the operator to turn the bit upon the tubing, allow for expansion and peculiarities, withdraw the blast tubes, lowering pump, &c without disturbing the seed bag.

Patent No. 47,187, Issued Feb. 21, 1865, Sixteen gut Ejector,

the latest improvement and contains the most economical application of the compressed air. This ejector needs only to be seen to commend it to the notice over any other apparatus heretofore used.

The above combination will move in a few minutes a stream of liquors from a depth of 500 and upwards, 100 feet and command a steady continuous stream of oil from the same, increasing in quantity as the well. The undersigned have for upwards of two years been engaged in the oil business, since 1864, and guarantee the best results in lifting Oil &c., from wells with less steam power than by any other method whatsoever. An engine 6 inches in diameter with 12 inch stroke running at 80 to 100 strokes, and the pump running at only 18 or 20 strokes, will in every case give satisfaction.

PATENT NO 46,925 ISSUED MARCH 21 1865 FOR IMPROVED SEED BAG COUPLING,

a means and convenient method of applying the seed bag, where the pipes are inserted in a well. See following testimonials.

TITUSVILLE January 7th, 1865

To JOHN H. WATSON Esq
President Crystal Oil Co

Sir

I have to report the complete success of Mowbray's Hydrostatic Pump and Ejector as applied to our No 1 Well. After fruitless attempts to clear out the well which had caved in below the seed bag, and previous experiments for lifting the tubing, the Ejector was inserted with its blast pipe inside the tubing and the pump at work. The quantity of sand thus removed portion of old seed bag driven up led me to suppose the well must be thoroughly tested. The working barrel being attached to the tubing and it being found impossible to pass the three quarter inch pipe through the crown end of the working barrel — of course impossible to make an effective sand pump that would pass through the working barrel. We were compelled, therefore to rely entirely on the Mowbray Pump and Ejector. During two hours working yesterday evening, the tank was filled with water, sand, &c and after emptying same about forty barrels more were thrown out, with occasional streaks of Oil. This afternoon, about 4 p m, the water became exhausted, and a full stream of Oil was thrown out with a violence that fairly shook the tank. This continues, and *more cannot be said of any Pump or Ejector.*

I may add, our engine is of small size scarcely equal to five horse power the pump works the effectively *making oil for [illegible]* and when this is compared with the dry pumps working at 70 and 80 strokes per minute, the economy and durability of Mowbray's Pump will be evident to every one. I congratulate the Company on having thus converted, *what must have been a valueless well, into a paying institution.*

Yours respectfully,
C. F. MORSE, Sup't Guild Farm

"COPY."

On applying a new "Woods and Mann" 8 horse engine the above well pumped *10 barrels of Oil in 45 minutes*, with the above Mowbray's Pump and Ejector, this day, Saturday, January 21 1865

THOMAS BALDRICK, Engineer.

Titusville, January 21, 1865

290, BROADWAY, NEW YORK, Jan 20 1865

To G. M. MOWBRAY,
Titusville Pennsylvania.

Sir

The success of your Pump at the Guild Farm Well No 1, induces me to order another for the Benhoof Well. You will please ship same, with connection immediately. Yours, &c.

JOHN H. WATSON

To GEORGE M. MOWBRAY,
Titusville, Pennsylvania.

DEAR SIR

I will thank you to examine our well No. 3 at the Guild Farm, and if your Pump is suitable for pumping the same, please ship one immediately, and see that it is properly set to work. The sucker and pumping arrangements at No 3 only delivers about four barrels, compared with your Pump at No 1, which throws out 100 barrels, so that it is owing to the advantage of the pump and not the deficiency of the well I wish one to be fixed immediately.

JOHN H. WATSON

WATSON PETROLEUM CO New York, February 3d, 1865.

DEAR SIR

Please send one of your Pumps to the Watson Petroleum Company, for the Drake Well. We have has one of the Newburg Pumps, Crook's Patent, which has failed to work, thus involving us in great loss, we therefore request you to give your personal examination of the Pump you deliver. We remain yours,

R. C. ROOT, President

ALL NUMBERS HAVE TWO BALANCE WHEELS

"It is an excellent combination of known devices for the production of a compact, efficient and cheap Portable engine."—Scientific American, December 17, 1864.

Portable steam engines, made after the usual plan of bolting the different parts to the boiler, are peculiarly liable to the foregoing difficulties, resulting from a want of entire stability in the arrangements arising from the unequal expansions and contractions of the various parts attached to the boiler. To remedy such defects has been the object in construction of an improved portable engine as represented in the drawing, where the whole of its parts are attached to a rigid bed plate of cast iron as in stationary engines, which bed plate is firmly secured to the boiler; thus to great compactness and completeness of engine is joined beauty of appearance, and complete independence of the unequal expansion in the boiler. It can be easily detached from the boiler and thus converted into a stationary engine if required, it also permits the removal or repairs of the boiler without any disarrangement to the machinery. The engine is entirely complete in itself, having a cylinder with its connections, crank shaft of wrought iron, with two pulleys of different diameters of improved construction, having wrought iron arms, force pump, safety valve, steam gauge, heater, governor, &c. The boiler is of the most approved pattern, with 3 inch tubes for burning resinous wood or coal, and is mounted on very strong and broad truck wheels, which enables it to be moved with great ease and safety from place to place.

Also manufacture

F. CROCKER'S CELEBRATED PATENT DOUBLE ACTING FORCE PUMP,

For forcing air down the well, which all other pumps have failed to do. We are turning out from two to three pumps per day. We also recommend

F. CROCKER'S PATENT EJECTOR,

In connection with the pump. F. Crocker claims all other ejectors for forcing air, water, and oil out of oil wells, as an infringement on his application.

We use a self lubricating Piston, which keeps the pumps from heating.

All orders filled within three or four days after receiving the orders.

THE CROCKER PUMP COMPANY.

Organized under the

Joint Stock Laws of the State of N. Y.,

Are now prepared to furnish their apparatus for

ELEVATING OIL FROM WELLS.

And by their experience are enabled to secure the best results from any well. This Company have secured the assignment of four patents, viz.

Angier & Crocker's No 44587	Oct 11, 1864
Angier & Crocker's	Dec 12, 1864
G. M. Mowbray's, No 43870	Nov 1, 1864
G. M. Mowbray's,	Dec 12, 1864

All of which have been thoroughly tested and found effective. Parties desirous of Pumping their Wells by this new mode, are cautioned before using other apparatus, to satisfy themselves of the efficiency of the same, before purchasing, and may safely disregard the notices issued by a company whose patents can only drive the oil into the ground, instead of bringing it to the surface. Whilst we are prepared to protect our patents, we aim at the same time determined in all cases after giving due notice to infringers, to protect against the owners of land and working interests, even if it should stop the working of the well. This we feel compelled to do in justice to those who have purchased our apparatus, and to uphold our rights.

FRANK THOMSON, Superintendent.

U. S. 7-30 LOAN

THIRD SERIES,

$230,000,000

By authority of the Secretary of the Treasury, the undersigned, the General Subscription Agent for the sale of United States Securities, offers to the public the third series of Treasury Notes, bearing seven and three-tenths per cent. interest per annum, known as the

7-30 LOAN.

These notes are issued under date of July 15, 1865 and are payable three years from that date in currency, or are convertible at the option of the holder into

U. S. 5-20 Six per cent.

GOLD-BEARING BONDS

These Bonds are now worth a handsome premium and are exempt, as are all the Government Bonds *from State, County, and Municipal taxation, which adds from one to three per cent. per annum to the value* according to the rate levied upon other property. The interest is payable semi-annually by coupons attached to each note, which may be cut off and sold to any bank or banker.

The interest at 7-30 per cent. amounts to:

One cent per day on a				$50 Note.
Two cents	"	"	"	$100 "
Ten	"	"	"	$500 "
20	"	"	"	$1000 "
$1	"	"	"	$5000 "

Notes of all the denominations named will be promptly furnished upon receipt of subscription.

The Notes of this Third Series are precisely similar in form and privileges to the Seven-thirties already sold, except that the Government reserves to itself the option of paying interest in gold coin at six per cent instead of 7 3-10ths in currency. Subscribers will deduct the interest in currency up to July 15th at the time when they subscribe.

The delivery of the notes of this third series of the Seven-thirties will commence on the 1st of June, and will be made promptly and continuously after that date.

The slight change made in the conditions of the THIRD SERIES affects only the matter of interest. The payment in gold, if made, will be equivalent to the currency interest of the higher rate.

The return to specie payments, in the event of which only will the option to pay interest in Gold be exercised, would so reduce and equalize prices that purchases made with six per cent. in gold would be fully equal to those made with seven and three-tenths per cent. in currency. This is [illegible]

The Only Loan in Market

Now offered by the Government, and its superior advantages make it the

Great Popular Loan of the People

Less than $300,000,000 of the Loan authorized by Congress are now on the market. This amount at the rate at which it is being absorbed will all be subscribed for within sixty days when the notes will undoubtedly command a premium, as has uniformly been the case on closing the subscriptions to other Loans.

In order that citizens of every town and section of the country may be afforded facilities for taking the loan, the National Banks, State Banks, and Private Bankers throughout the country have generally agreed to receive subscriptions at par. Subscribers will select their own agents, in whom they have confidence, and who only are to be responsible for the delivery of the notes for which they receive subscriptions.

JAY COOKE,
Subscription Agent, Philadelphia.

May 1st, 1865.

Subscriptions will be received by the

First National Bank, Second National Bank, and Petroleum Bank, at Titusville.

Passengers for City upon the arrival of Passenger trains on the A. & G. W. Railroad Leaves Shaffer on the arrival of the 8.00 train.

LETTER LIST.—The list of advertised letters for the week ending yesterday will be found on our second page.

WE are temporarily compelled to abridge our local summary, for want of adequate force in our editorial department. We hope very soon to secure additional help, and shall proportionably increase the quantity and variety both of original and selected matter.

BASE BALL.—The Petroleum Base Ball Club have to have field exercise every evening at 6 o'clock, weather permitting, on the fine grounds below the Titusville House. We are glad to learn that a thorough organization has been effected, and much interest is evinced in their exhilerating exercises. It is good for mind and muscle.

FOURTH OF JULY.—A meeting of citizens is called for Friday evening, June 18th, at Firemen's Hall, to adopt suitable measures for the celebration of the Fourth of July. We trust that it will be generally attended, and such action taken as will result in an appropriate observance of the great National holiday—something creditable to the intelligence, the wealth and the patriotism of our thriving borough.

NEW CHURCH AT ERIE.—The laying of the corner stone of the new Episcopal church at Erie took place on Wednesday. The society was organized March 17, 1827, and its first church erected in 1831. The Rev J P Spaulding is the present rector. Copies of the Erie newspapers were deposited in the corner stone, together with various samples of U S coin and currency. Rev Mr Purdon, of Titusville, participated in the ceremonies.

THE HUTCHINSONS.—These celebrated vocalists are to favor our citizens with another delightful entertainment. They will sing on Friday evening in the old Presbyterian church, at the head of Franklin street. The programme arranged for the occasion embraces some of their most popular selections, and so rarely are our citizens favored with entertainments of this character, that we may safely bespeak for the Hutchinsons a full and appreciative house. See advertisement.

PUBLIC HALL.—We referred yesterday to the contemplated erection of a public hall in the new block on the Post Office corner. That this project is fully determined upon we are not informed. The block next adjoining the site of the hotel is to be of brick, and the upper portion appropriated to a public hall. The excavation for this structure is now being made. It will have a front of forty by a depth of one hundred feet. The hall will be of similar dimensions and six teen feet in the clear. Cost $20,000. The owners are Messrs STRAUSS & STETTHEIMER and FRYER & BEAR.

DISTRIBUTION OF PAINTINGS.—The attention of lovers of art is directed to the first annual distribution of paintings of the National Art Association of New York. The drawing is to take place July 12th, under the management of Dolph Bros, at their photograph rooms in Farrar Hall, Erie. A few of the Paintings are now on exhibition for a few days at Jennings & Cos Drug Store, where tickets for the distribution may be secured. The valuation of the collection is $2 148, and the tickets are limited to 1,000, at $3 each. Call and look at the paintings.

OUR CARRIER DOWN THE CREEK.—John J McElroy, has taken the carrier agency of THE MORNING HERALD between Shaffer and Oil City, and will deliver the papers in person, or by substitute, to all regular subscribers on Oil Creek. Mr. McElroy is an intelligent, capable and energetic young man, amply qualified by experience for this responsible undertaking. We commend his enterprise to the favorable notice of all whom it may concern.

DESTRUCTIVE FIRE AT PETROLEUM CENTRE.—On Monday last, between 4 and 5 o'clock in the afternoon, the Evans House at Petroleum Centre, was totally destroyed by fire. It was a substantial frame structure, three stories in height, commenced in February last, and opened as a hotel one month since, by David Evans, the proprietor, under whose enterprising management it had become very popular. It is said that $16,000 will not cover Mr E's loss—all his furniture and a large stock of provision stores being consumed in the building. C L Williams, who kept a barber shop in the hotel, also sustains a loss of $600. There were over fifty guests, transient and boarders, who suffered severely in the burning of their baggage and effects. Doctors Thickstun and Cheesecan are damaged over a $1,000 each. There was no insurance on the property.

WESTERN UNION TELEGRAPH CO.—Within a few months this company have very largely extended their facilities for doing business in this section of country. Their lines now radiate from the oil region in almost every direction. They have two lines from Titusville, communicating with Pittsburgh and Erie, via Franklin, and at the latter point diverge by four different wires. The same company have nearly completed an other wire to Erie, via Corry, which will be in operation within the next fortnight. This will give a total of five different circuits from Titusville, where, it may be safely asserted, more telegraphic business is transacted than in all other parts of the oil region combined.

Mr. Geo. F. Smith, the efficient and untiring superintendent of the W U T., is already arranging for the further extension of the line to important points in this section, during the present summer.

The news reports of this paper are received by the Western Union line, from the New York office. Mr. Reynolds, the local manager, has an able and obliging corps of assistants, and the business of the office is conducted with the utmost promptitude and regularity.

EVANS HOUSE.—This hotel has been thoroughly refitted and refurnished, and will, when in order, accommodate about 200 guests.

For the Morning Herald

Eyes of Blue.

Eyes of blue transcendant mirror—
In your depths I've learned that love
Is no base or careless passion,
Ever predisposed to rove

Eyes of blue—the vault of heaven
With the angels far behind,
Cannot wed a holier beauty
Than your own unto my mind

Eyes of blue—if charm or token
Ever could lead me astray,
By your soft and tender azure
Magic to control my way!

Eyes of blue—I love your blueness,
And your truest, too I trow
Eyes of blue—no others rule me,
By your luster do I vow

Life oh life may smile forever,
Let sky laugh its sunshine too,
But I'd know the glad one's fire thing
If you saddened—eyes of blue

TITUSVILLE.—So far as we can judge at this time has there been such unmistakable signs of solid improvement in Titusville, as during the present season. A walk round the borough will reveal somewhat of the activity of the times. Two splendid hotels in process of building, and others renovated and refitted, besides the large number of stores and private residences, afford indications of prosperity, which it will do good to contemplate.

Certainly the people seem to be fully impressed with the belief that our town is bound to flourish. Capitalists are proverbially cautious. When they rise in the morning it is not to waste their substance, and they go about the business of the day with the intention of adding to their gains. What therefore do the displays of activity in the way of building mean?

It is doubtful whether in proportion to numbers, the great cities of Philadelphia and New York increase so fast as Titusville. There must be a reason for this. Confidence is an element of success in any undertaking. In one way or other the people have made up their minds that Titusville is to be one of the largest if not the largest of the interior towns of the State. This view seems to have influenced the course of business and to have energized the whole population. Our citizens believe in Titusville and hence they are working like beavers to build up it. And it may be that they have concluded that if the terrible revulsions caused by the state of national affairs and the assassination of the President during the last few months could not permanently injure our prosperity nothing can do it.

But there are some things necessary to be done yet. We want a new county and we want the seat of justice here. It is too bad to have to go seventy one or two miles by railroad to attend to public business. This subject must be agitated. The interests of business and claims of individual convenience should be heard. This subject will be referred to again.

OIL WELLS LOCATED.

ERIE MAGNETIC OIL COMPANY

OFFICERS

JESSE SMITH, *President*
I BLENNER, *Vice President*
Wm W REED *Secretary and Treasurer*

MANAGERS—Wm W Reed, Erie, L W Smith, N Y E H Smith Erie Jesse Smith Titusville, Joseph Blenner, John S Brown Erie

This Company has been organized with a view of developing Oil Territory without the uncertainties which usually attend it as business—for the purchase and sale of lands upon the most favorable terms and for the location of wells for all parties who may desire its services.

This Company has purchased a quantity

OF LAND ON OIL CREEK

Located on that creek and the principal tributaries of that stream which will be disposed of in tracts or privileges and in every case when it is desired oil will be guaranteed to purchasers.

By means of a new instrument constructed upon scientific principles, the properties and peculiarities of which are unknown to all other parties, this Company is enabled to locate oil wells or deposits giving their extent to a certainty which obviates the necessity of boring or sinking a well, without knowing which oil will be obtained. The Company will forfeit every condition of sale or contract which does not prove upon test to be equal in all respects to what it is represented.

An opportunity is here afforded to all to save the thousands of dollars which have in many cases been literally squandered upon an uncertainty—By their method, the

EXACT LOCATION

OF THE

OIL DEPOSIT IS POINTED OUT!

And no man need bore without finding oil. All communications addressed to the Erie Magnetic Oil Company, or calls at the office of the Company in Erie, will be promptly responded to.

Address JESSE SMITH, Titusville, Pa.

J. H BAKER

Attorney and Counsellor at Law. Office in the Bank Building, corner Spring and Franklin Street, Titusville, Penna.

HUTCHINSON FAMILY

AT THE OLD

PRESBYTERIAN CHURCH,

HEAD OF FRANKLIN STREET

THE Hutchinson Family will by request of many citizens, return to Titusville and give their last CONCERT, as above, at which occasion they will render a rich and varied Programme, comprising some of the pieces they sang at their great concert in Titusville, and many others of rare excellence.

Doors open at 7. Concert to commence at 8 o'clock.

Tickets 50 cents.

Copartnership Notice.

WE all the undersigned manufacturers of drill tools, sucker rods and joints, repairing engines, and blacksmithing of all kinds at our old stand, under the firm of Lucke & Hamilton. We feel grateful to our former friends, the generous patronage and to ask a continuance of the same. Those who have not patronized us we invite to call and try us.

JONATHAN LUCKE
D F HAMILTON

To Oil Seekers.

A YOUNG MAN who has made drilling oil wells his business for the last four years wishes to enter into contracts with parties for putting down any amount of wells—by the foot at the going price.

Having experience and trusty men at his control, employers can be sure of OIL BETTER or CHANGE.

List of references given. Address

J R HOLDEN
Box 4 1 7 Titusville

WANTED.—Board for a gentleman and his wife in a private family. Address, stating terms, Box 127 T.
